**Peace Piece Project**  
**realizes world peace**  
**by raising children who create peace**

The name and logo of the Peace Piece Project  
have the meaning that  
"If each small piece of love gathers,  
it can create a great peace."

# SUSTAINABLE DEVELOPMENT GOALS

Some 250 million children live in conflict-affected countries and regions. Many children are feeling hard and sad, such as losing their lives and losing their families by dispute, violence, environmental destruction.

The Peace Piece Project aims to realize world peace by holding the Children's World Peace Summit with children around the world and creating an earth where children can live with peace of mind.

All of our activities contribute to the achievement of the Sustainable Development Goals (SDGs) which is an action plan for humans, and the planet to ensure our ongoing prosperity, promoting by the UN.

# Message from the Representative

## Raising children who create peace and creating an earth where children can live with peace of mind

We started activities to raise children who create peace in 2009, with the aim of realizing world peace.

10 years have passed since our activity started. So far, we have been able to work on the following activities with so many children.

- **Achieve a Guinness Record with the “World's Largest Paper Crane”**
- **Formed a support team to invite the Olympics to Hiroshima and submitted over 600,000 signatures to the mayor**
- **Original and published a manga that tells the history of Japan's recovery**

I would like to express my sincere thanks to many people for their kindness.

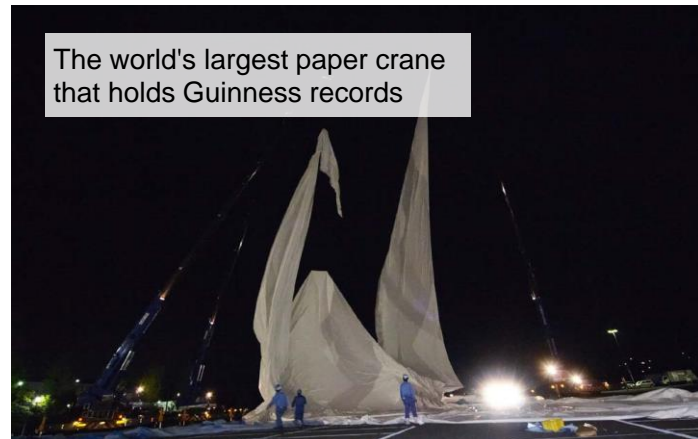

By the way, even if you hear "world peace", some people may not have a concrete image.

It has been a long time since World War II. As a result, very few people directly experience the war and remember how they recover. We must learn that peace is maintained by the efforts of many predecessors, and how they have built peace.

Globally, some 250 million children live in conflict-affected countries and regions. Wherever the environment in which children are born and raised, creating an earth where they can live with peace of mind is a very urgent and important task.

The Peace Piece Project defines the realization of world peace as creating an earth where children can live with peace of mind. And we are raising children who create peace to make it happen.

**The first step in raising children is to hold the Children's World Peace Summit.** We will hold this in the International Conference room in the members hall of the House of Representatives which is used by heads of state. At that place, multinational children will discuss "how to achieve peace on a global scale" and administer an oath.

The world's largest paper crane that holds Guinness records

The activity to collect signatures on the street

Peace education at home and abroad

We raise children who create peace by providing a place for them to plan, execute, and report on their actions based on that declaration.

**Second, we promote peace education.**

Currently, there is no subject of "peace education" in Japanese school classes. In addition to studying the history of war in social studies classes and dealing with novels and poems in Japanese language classes, we will also work with educational institutions to create classes that specifically consider how to create peace.

**Third, we will conduct enlightenment activities to increase the number of associates of this activity and recruit supporters.**

Creating an earth where 250 million children can live with peace of mind requires many people who understands and supporters. We will hold speeches at international summits and give lectures in various places to make our activities widely known.

In this way, we are promoting activities to raise children who create peace in order to achieve world peace. If you could support our activities, please become our supporter.

We look forward to your participation.

I hope the future of children be a world full of love and peace.

Guide to the Peace Memorial Museum

Think about peace education with adults

**<< Representative Profile >>**

**A female entrepreneur living in Hiroshima, Japan. August 27, the same birthday as Mother Teresa. Her grandmother died on August 6, 1945, by the atomic bombing of Hiroshima. She grew up after hearing the history of Hiroshima's recovery from her bombed mother and great-grandmother.**

**At the age of 10, she had cerebral hemorrhage due to a traffic accident, but miraculously survived. She had her gratitude for being alive, so she aimed to be an entrepreneur who would be useful to society.**

**Currently, she is promoting businesses that benefit the world, such as the brokerage sale of solar power plants.**

**In color psychology, pink is said that you can be happy just by looking at it. She wears pink clothes 365 days a year with the hope that everyone who meets her will be happy.**

**She is the # 1 Google search "Pink Shacho".**

# Company Profile

## Business Overview

---

### VISION

#### Realizing world peace

Creating an earth where children can live with peace of mind

### Mission

#### Raising children who create peace

### Description of Business

#### ● Hold the Children's World Peace Summit

- Peace discussion by children around the world
- Oath by children

#### ● Promotion of peace learning

- Create textbooks for peace learning
- Cooperation with educational institutions, free lending of comics, utilization of peace learning, school visits, lecturers

#### ● Enlightening Activities and Supporters Recruitment

- Speech and lecture at international summit
- Peace Speech at UN
- Publicity activities and events, lectures to cultivate companions
- Donation of comics to international organizations and important persons, activity reports, etc.

# Children's World Peace Summit

写真提供 地球こどもサミット

## Thinking about ways to achieve world peace with children from around the world

We are raising children who can act independently to achieve world peace. We define "world peace" as "the earth where children can live with peace of mind" and hold the Children's World Peace Summit as a place for children to independently consider ways to achieve world peace.

This Summit will be held the International Conference room in the members hall of the House of Representatives which is used by heads of state. At that place, multinational children will discuss "how to achieve peace on a global scale" and administer an oath. We raise children who create peace by providing a place for them to plan, execute, and report on their actions based on that declaration.

### ◆ Program (planned)

#### Children's World Peace Summit

~ We create the peace of the earth!

- Greetings from the Minister
  - Peace discussion by children around the world "How to make the earth peaceful"
    - ~ Think about how to create peace by using familiar books
- Oath of a child!

# Promotion of Peace Education

According to psychologist Erik Homburger Erikson's Theory of Psychosocial Development, the age of development between the ages of 5 and 12 is called the "school age."

During this age, children will be able to understand and judge good and evil, will be able to target and recognize things to a certain extent, and analyze them with a distance from them, a more differentiated pursuit is possible. School age are said to be a very important time to bring about growth and development to the mind and body.

During that important school age, children learn about the importance of peace, think, act and report on it. Such education raises children who realize world peace.

According to the theory of cognitive development by developmental psychologist and child psychologist Jean Piaget (Swiss), at the age of 7-11, they will be able to develop logical thinking skills and be able to think from the standpoint of others. Starting at the age of 11, they will be able to apply their knowledge and experience to make hypotheses, predict what will happen if this is the case, and act and speak.

In this period, which coincides with school age, we will raise children who have their own initiative to open up the future by providing education to achieve the following goals; "Respect the traditions and culture, and develop an attitude of loving homeland and territory, as well as an attitude of respecting other countries, their willingness to understand foreign cultures and contributing to the peace and development of the international community." (Goal of compulsory education under the School Education Law of Japan)

To that end, we will hold the Children's World Peace Summit, promote peace education in cooperation with educational institutions, and develop activities to increase supporters.

## from age 7 to age 11 Concrete operational stage

- Logic thinking develops and you can speak and act considering the other person's feelings
- Understand numerical concepts and can compare weight, length, distance, etc

1. Understanding of conservation
2. Less egocentric and more rational

## age 11+ Formal operational stage

- Understand abstract concepts
- Image concretely from explanations and videos
- Use their existing knowledge and make predictions about what will happen in the future

▲ Piaget's Stages of Cognitive Development

# Cooperation with educational institutions

- In cooperation with the Shimonoseki City Board of Education, peace learning at all 72 elementary and junior high schools in Shimonoseki City
- Visit to Yumegaoka Junior High School and Seii Elementary School and peace lessons

- Visit the superintendent of education and the mayor and report on our activities
- Donation to all 216 elementary schools, junior high schools, and high school libraries in Hiroshima City in cooperation with the Hiroshima City Board of Education

Mr. Kodama, Shimonoseki City Superintendent of Education

Mr. Itoyama, Hiroshima City Superintendent of Education

Mr. Ogata, Hiroshima City Former Superintendent of Education

- Visit Hiroshima City Noboricho Elementary School, Hiroshima City Nakajima Elementary School
- Preliminary study of school trip with Asahi Juku Elementary School (Okayama) and guide on the day of school trip

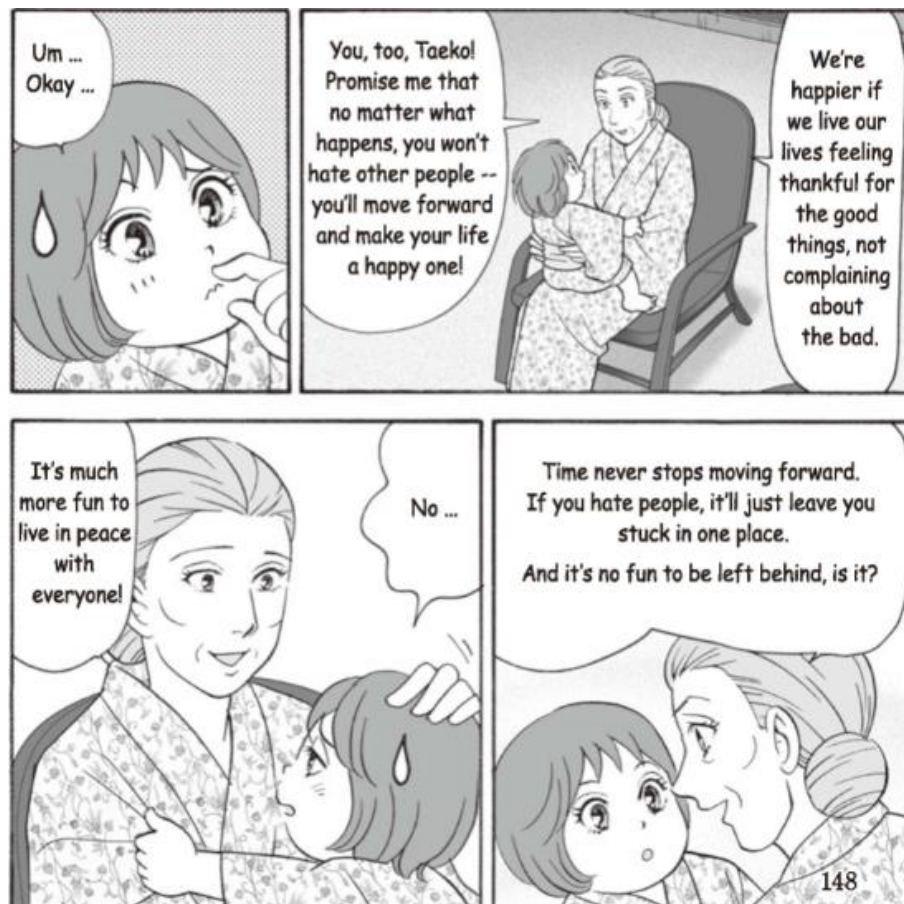

In addition, in collaboration with the Hiroshima City Economic and Tourism Bureau, we donated 600 books as peace learning materials for school excursions, and provided e-books and learning PDFs. We also had a peace education discussion with students from the Kanto Gakuin University Faculty of Education, Child Development Department.

# Creating Textbooks for Peace Education

After World War II, Hiroshima underwent a miraculous revival in mental way and living environment aspects.

The women in Hiroshima survived moving forward strongly and lived positively with a mind of forgiveness, without having a grudge against or hating someone. We published their story in comics and made it a peace education textbook.

This manga will foster children who will creating the future through the history of Hiroshima revival. Through learning reconstruction history, children will respect the traditions and culture, and get an attitude of loving homeland and territory, as well as an attitude of respecting other countries, their willingness to understand foreign cultures and contributing to the peace and development of the international community.

## Free distribution of e-books on Amazon Kindle

Anyone can read for free from the QR code below. Use in school classes is also welcome.

\* The book version can be purchased. \* Free lending of books to educational institutions is also available.

# President Obama is impressed by reading "The Hiroshima Miracle"!

On April 14, 2016, we donated "The Hiroshima Miracle" to Ms. Caroline Kennedy, US Ambassador to Japan, to make President Obama's visit to Hiroshima a reality.

Ms. Kennedy gave us a thank-you letter saying, " I will send it to Washington (President Obama)." And on May 27, 2016, President Obama's visit to Hiroshima was realized. At a later date, President Obama gave us a thank-you letter saying, "I am moved by your story."

## < Letter from President Obama >

Dear Taeko:

**I am moved by your story. I visited Hiroshima to reaffirm my commitment to working toward a world without nuclear weapons.**

**We have a shared responsibility to look directly into the eye of history and ask what we must do differently to prevent such suffering from ever happening again. It is through the examples set by the hibakusha that we are able to define ourselves not by our capacity for war, but by our common humanity. Since that fateful day, we have made choices that give us hope, and stories like yours are a testament to how far we have come.**

**So long as more people take the time to understand the past and embrace compassion, I am confident a brighter, more peaceful future lies ahead. Thank you, again, for sharing your story with me. I wish you all the best.**

**Sincerely, Barack Obama**

AMBASSADOR OF  
THE UNITED STATES OF AMERICA  
TOKYO

Ms. Taeko Tada  
Representative  
Peace Piece Project  
1-17-25 Deshio, Minami-ku,  
Hiroshima-shi, Hiroshima 734-0001

Dear Ms. Tada:

Thank you so much for sending two copies of *The Hiroshima Miracle – Hiroshima is in the Pink*. I look forward to sharing them with my Embassy colleagues and guests. We will also send a copy to Washington. I appreciate your thoughtfulness.

The foundation of the U.S. Government's non-proliferation efforts is the clear understanding and recognition of the human consequences of the use of nuclear weapons. I was deeply moved by my visits to Hiroshima and Nagasaki and hope that these visits help to advance President Obama's goal of realizing a world without nuclear weapons.

Sincerely,

Caroline Kennedy

THE WHITE HOUSE

Ms. Taeko Tada  
Hiroshima, Japan

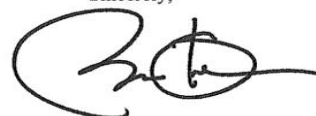

Dear Taeko:

Thank you for writing to Ambassador Kennedy. I am moved by your story.

I visited Hiroshima to reaffirm my commitment to working toward a world without nuclear weapons. We have a shared responsibility to look directly into the eye of history and ask what we must do differently to prevent such suffering from ever happening again. It is through the examples set by the hibakusha that we are able to define ourselves not by our capacity for war, but by our common humanity. Since that fateful day, we have made choices that give us hope, and stories like yours are a testament to how far we have come. So long as more people take the time to understand the past and embrace compassion, I am confident a brighter, more peaceful future lies ahead.

Thank you, again, for sharing your story with me. I wish you all the best.

Sincerely,

Thank-you letter from Ms. Caroline Kennedy

Thank-you letter from President Obama

# Publication in UN official languages

## Circulation

Japanese version  
**6,000 copies**

English version  
**1,000 copies**

French version  
**2,000 copies**

In 2019, we conducted crowdfunding for publishing the French version, and many people supported it. And in January 2020 we were able to publish a French version.

We would like to express my gratitude to everyone once again.

So far, we have published in Japanese, English and French, but for children around the world to read, we need to publish and active in the language used in that country.

First of all, we will publish in the six official languages of the United Nations (English, French, Arabic, Chinese, Russian and Spanish), and we kindly ask you for your ongoing support.

## Crowdfunding

(Cambodia)

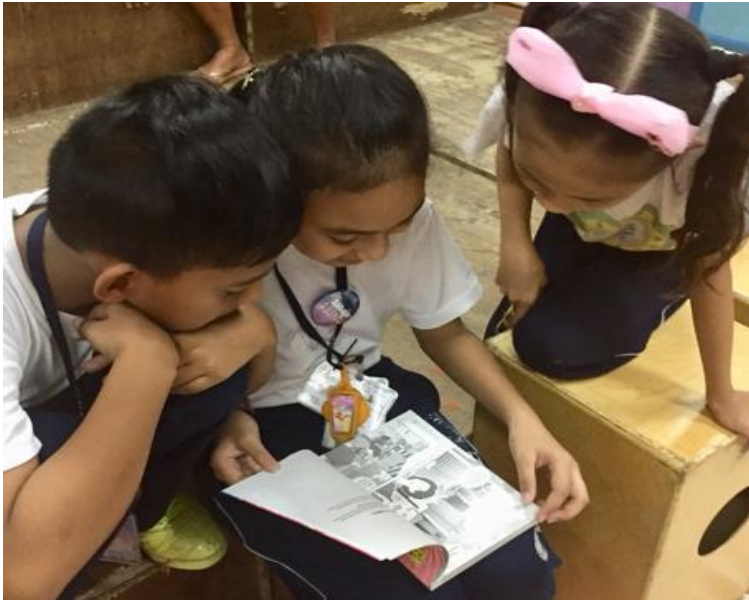

NPO Seven Spirit (Philippines Cebu island)

## Posters drawn by children who read "The Hiroshima Miracle"

## Impressions from street children in Cebu, Philippines

I love the scene of  
"promise me that no matter what happens,  
you won't hate other people -- you'll move  
forward and make your life a happy one!"

My favorite scene is when Taeko  
and her mother talking and Taeko's  
mother said that, no matter what  
happens, you won't hate other people  
you'll move forward and make  
your life a happy one!. I like  
it very much.

In addition, children gave us impressions of this comic with pure thoughts on peace as follows:

*I learned about the Importance to live.*

*I was able to think deeply about the warmth in people's hearts and the power to live positively.*

*I want to live thinking about what I should do and how to do in the future.*

**We will expand the circle of this activity and bring up children who realize world peace, so please register as a supporter and support us continuously.**

**Register as a supporter here: <https://peacepieceproject.com/p-support> (See page 22 for details)**

# 小学生が紡ぐ平和のメッセージ

## 漫画「キセキのヒロシマ」を読んで

広島市中島小6年生  
半田市(愛知県) 半田小5・6年生

2018年は戦後73年目。年々、平和の尊さを自らの体験として次世代に伝える人たちが減っている。こうした中、原爆投下後の広島を舞台にした漫画「キセキのヒロシマ」を出版した一般社団法人ピースピースプロジェクト(多田多延子代表)では、学校に漫画を贈呈したり、無料貸し出ししたりしながら、子どもたちの平和教育を推進している。漫画を読んだ広島市の市立中島小6年生と、愛知県半田市の市立半田小5・6年生のメッセージを紹介する。

### 被爆者の支え合いが復興に／原爆について伝えたい

中島小6年生

平和であることが大切であるということを実感することができるとして、原爆のことについて考えたことはなかったけれど、「キセキのヒロシマ」という本を読み、初めて原爆のことについて、しっかりと考えることができたので良かったです。原爆のことについて考えていると、とても心が痛くなってきました。

当時の広島の方は、強い心と優しい心を持っていてすごいですね。曾祖母は孫を必死で守っていて優しいなと思いました。

がれきのなかで焼け出された子どもたち、一銭洋食を食べさせていた女性の姿に、勇気や希望をもたらした気がします。副タイトル「HIROSHIMA is in THE PINK」には、ピンクが幸せに満ちているという意味から付けられたことを知り印象的でした。広島の人々のアメリカ人を許す心を見習わなければ、と思いました。

私は原爆のことについて深く考えたことがありませんでした。でも、この本を読んだら、同じ日本に住んでいるのだから、もっと知らないやだめだなどと思いました。広島の人たちの苦労がどれだけすごかったかということが改めて分かりました。なので、戦争のことを調べてもつとちゃんと深く知らなきゃいけないなと思いました。

広島は原爆で被害にあつた人々がどんなに苦しんだのか、どんなに悲しんだのか、この漫画を読み初めて知りました。

### 原爆考えるきっかけに／広島の人への優しさに感動

愛知県 半田小5・6年生

広島は原爆を落とされたけど、アメリカをうらんだりせず、前向きに頑張っていて、いまではほとんど復興しているのですね、と思いました。でも、うらんだりしても、なにも変わらないということが、この本を読んでもよく分かりました。広島は力強く生きつづけたんだなと思いました。

わたしはこの本を読んでも、まず命がどれだけいせつなのかが分かりました。そして命は、かんたんになくなってしまう命をたいて一つしかないなと思いました。

この本で苦しんだ人や死んでしまった人が、どんなに悔しかったかがよく分かりました。そして、今がどんなに幸せなのかも分かりました。戦争はもうおきないでほしいです。ほくも平和のために自分からけんかの種をまかないようにしたいです。

一人ひとりの生きよう、元に戻そうという思いが今の広島になったこととお好み焼きという広島で有名なものが一銭洋食から生まれたことを、この本から学びました。一人ひとりの人間がせいじつばいの力をだすことで世の中はよくなつていく、と思いました。

相手が苦しんでいたなら無視せず、話しかけて助け合おうという思いが、ある！と思いました。カーブも、他のチームとはちがいで、広島のみならず育ったのはすごく深くいいと思います。70年間、草も木もはえないといわれていたけど、今の広島は明るく、平和ですばらしいです。

原爆のおそろしさが改めて分かりました。原爆でたくさんの方が亡くなつてしまいましたが、生き残つ

がよいと思いました。そなたです。原爆ドームは原爆のえいきょうがどれだけ大きいか、そして戦争のおそろしさを語ってくれそうな建物ですが、原爆ドームがピンクに染まっているのを想像したら、すごく美しく力強いように思いました。ほくは平和のためにアメリカを恨まず、これからも仲良くしていこうと思いました。

原爆のことを私も大人になつたら世界中のいろいろな人に伝えたいと思いたいです。お好み焼きがえようと思いましたが、せなら今の広島がどのようになつていくのか、この本からたくさん学んだら、カーブの誕生も市民たちの努力で復興していったのだと思います。他県では原爆について勉強しないかもしれませんが、その人たちにも教えるべきだと思います。

最後の原爆ドームが朝陽に映えてピンクに染ま

漫画 キセキのヒロシマ 多田多延子さんが家族の実体験をもとにストーリーを練り、東京の漫画制作会社が作画を担当した。壊滅的な被害を受けた原爆投下後の広島で、多田さんの母親と叔父を、女手一つで育ててきた曾祖母と、戦後の復興を支えてきた女性たちの前向きに生きる姿を描きながら、平和の大切さを伝えている。お好み焼きのルーツや、カーブ誕生の史実なども盛り込み、広島市の復興していく過程が時系列で描かれている。漫画は全5巻で各巻ともA5判32ページ。戦後70年に合わせて出版した。広島市内の市立小・中・高校に寄贈している他、全国の学校には無料貸し出しも行っている。英語版も2016年3月に制作した。各巻432ページで、5巻セットで2160円。インターネットで販売している。詳細はピースピースプロジェクト(082-253-0060)。

When "The Hiroshima Miracle" (English version) was published in March 2016, it was published in overseas media such as Japan Times and Kyodo News.

**FEATURE: Women's resilience takes the stage in manga of A-bomb survivor's kin**

By May Masangkay  
 HIROSHIMA, May 28, Kyodo

The horrors of the world's first atomic bombing in Hiroshima are often captured in black and white photos of the devastated western Japan city and images of survivors' scars.

But Taeko Tada, whose mother survived the U.S. atomic bombing on Aug. 6, 1945, at the age of 5, has a different take on the tragedy, as her self-published manga focuses on the happier faces of women who let go of their pain, decided to forgive and helped rebuild the city.

In her book entitled "The Hiroshima Miracle: Hiroshima is in the Pink!" Tada, 47, uses the color pink on its cover and title to reflect her desire to depict the atomic-bomb survivors' tales as one that brings hope and joy to people. Pink is her favorite color which represents joy.

**Manga shows Hiroshima survival as one of joy**

By May Masangkay  
 HIROSHIMA

HIROSHIMA - The horror in post-bombing Hiroshima is captured in black-and-white photos of the city and its beleaguered survivors.

But Taeko Tada, whose mother survived the U.S. atomic bombing at the age of 5, has a different take on the tragedy. Her self-published manga focuses on the happier faces of women who let go of their pain, decided to forgive and helped to rebuild the city.

"The Hiroshima Miracle: Hiroshima is in the Pink!" uses the color pink on its cover to depict the hibakusha experience as one of hope and joy.

"I wanted people to know more of the brighter side of Hiroshima, that this city is in the pink and filled with happiness as a result of efforts by women like my great-grandmother to rebuild the city after the atomic bomb," said Tada, 47, a representative of the Hiroshima-based Peace Piece Project.

"Hiroshima is not just an atomic-bombed city with a sad history but also with a story of rising above the tragedy. I wanted to retell the stories of women who struggled and played key roles in reconstruction efforts and how women forgave and helped each other."

Tada's great-grandmother lost her daughter-in-law at age 56 due to the effects of the atomic bomb and raised Tada's mother alone.

Tada released the manga in Japanese in five booklets last year, to mark 70 years since the end of World War II. It was printed in English in March and will be available on iBooks.

The book was sent to American Ambassador Caroline Kennedy, who in April wrote a letter of thanks. Kennedy said a copy will be sent to Washington.

In her letter, Kennedy said she was "deeply moved" by her visits to Hiroshima and Nagasaki, and said she hopes the visits will "help to advance President (Barack) Obama's goal of realizing a world without nuclear weapons."

Tada said she was "very touched" by Obama's speech during his historic visit Friday to Hiroshima as the first sitting U.S. president to do so, especially since he mentioned a story about forgiveness, a theme that reverberates in her manga.

In his address, Obama spoke of a woman who forgave the pilot who flew the plane that dropped the bomb "because she recognized what she really hated was war itself."

Tada's 172-page book features her great-grandmother's ordeal in the aftermath of the bombing. Tada said she was very young when her great-grandmother died but vividly recalls her inspiring words about how it is better to forgive than to be stuck in the past.

The manga also features the story of a mother who cheered on a struggling baseball team in Hiroshima in honor of her son and a woman who was known as one of the "Hiroshima Maidens" invited to the United States for reconstructive surgery.

Recounting her experience in high school, Tada said she was shocked when, as a volunteer guide for foreign visitors, she was asked if the people in Hiroshima still hated Americans.

"(The) atomic bombing is a serious subject and sometimes discourages people to come here. People feel heavy after touring through the Peace Memorial Park and other atomic bomb-related sites," she said.

She said her manga received positive feedback from atomic bomb survivors, who thanked her for sharing sentiments they could not quite articulate.

"We cannot live in the past. We cannot change what happened," Tada said. Her message is to live toward the future. "This is the Hiroshima I want people to know."
